

## Vermont and Around

X-Plane 8.60+

Barry Roberts  
svcs@netspace.net.au

Release version 2

Enjoy scenery and more accurate taxiways for this collection of Northeastern USA airports. Scenery is basic and does not accurately depict any actual locations however aims to provide something to look at on arriving at these smaller strips. Taxiways and scenery positions have been generated using Google Earth images and other available information.

### RV 1 Amendments

Additional 33 private and minor airports added

#### Conditions of Use

**The archive must not be distributed with modification to the contents of the archive. Redistributing this archive with any files added, removed or modified is prohibited.**

- The inclusion of any individual file from this archive in another archive without the prior permission of the author/s is prohibited.**
- No charge may be made for this archive or any part of contained within the archive**
- The end user takes full and total responsibility for the use of this software**

### Installation

Unzip Vermont.zip and place the entire folder (as a folder/directory) into the Custom Scenery folder/directory of X-Plane 8.60+

This is a complete replacement of Release Version 1

See the next page for a complete list of airports contained in this package.

### Known issues

With **USA East V8 Forests** (alpilotx.de) installed, trees do interfere with a few more remote locations because strip headings have been corrected or conifers have grown through buildings. (Anyone got a chainsaw handy)

#### **Static Aircraft - Terms And Conditions Of Use:**

You may use this static aircraft in the following ways. You may place it in the scenery by any airport anywhere in the X-Plane world. You may include a copy of it in any scenery pack you wish to publish on the Internet. Note, you must include un-altered copies of the object file and texture(s) as well as a copy of this 'read me' document with them. You must also mention my name (**Planebuilder**) and give me credit as the original builder of the static model. You may modify/customize your own personal copy of the model to suit your own tastes. Note, If you are unsure how to do that, there are detailed instructions on just how to customize the static aircraft and still have it work listed near the end of this document. You **MAY NOT** publish an altered copy of the static aircraft without my express written permission. You can contact me at [ezeldachamp@bellsouth.net](mailto:ezeldachamp@bellsouth.net).
